Hon. J. Edgar Hoover,
Director of the FBI
Department of Justice Building,

Dear Mr Hoover:

Under separate cover I am sending you copy of "Masters of Deceit" which I wish you would autograph for me. It is a splendid book, and one that should be purchased and read by every patriotic citizen in the U.S. I served 19 months overseas in the first world war, and have served as state veterans of foreign wars Commander, and as a member of the National Executive Committee of the American Legion, representing the state of Minnesota.

I have been a lawyer for 45 years. You are doing a great job and it is no wonder that the Communists and their dupes dislike you. I enclose a letter to the Headlight-Herald of Tracy Minnesota, January 22 1959, that you may be interested in. I enclose return postage.

Letter To Editor

January 16, 1959

Editor:

It is not my aim to get into a debate with so formidable a controversialist as Glen Horsman, but I do wish to protest against some of his statements about Communism, and Legionnaires.

I have been a member of the American Legion continuously since 1919, (District Commander in Minneapolis and also a member of the National Executive Committee).

The great percentage of Legion members are not braggarts, and they definitely appreciate the dangers from the Communist conspiracy. All one has to do is to read the Legion Monthly.

No one has to defend J. Edgar Hoover from the Communist masterminds or their innocent, naive fellow travellers. He has written a wonderful book "Masters of Deceit." Senator Joseph McCarthy was like Horsman, a veteran. He was liked by some people and disliked intensely by Communists.

The American Bar Association has made a careful and long investigation of the Communist propaganda campaign in the U. S. They, like Mrs. Coplech, warned against complacency. Let's have an open mind on Communism. Read the Legion Monthly, and "Masters of Deceit."

Sincerely yours,

Z. L. Begin

Dear Sir-

Your recent book, "Masters of Deceit" impresses me deeply. This tremendous and urgent effort to awaken us from our lethargy into an awareness needs the widest possible acceptance.

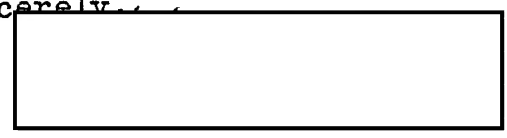

I long to help spread its message far and wide within my circle of influence, hoping to reach many who might not otherwise be reached.

Because of this I have attempted to make a brief of some of what seemed to me the most significant of your statements, and please note that it is all in "Quotes". I herewith submit a copy of it for your notice asking permission, if you are willing to have it mimeographed for distribution. In every way open to me I should like to publicise what you have done, in hope of extending its influence.

Inclosed is a self-addressed card for your reply. Your authority to advise, and the terms in which you have couched it are eloquent. All I ask is permission to quote you in your exact own words.

Acknowledging a great debt to you for what you have done for us and for the cause of freedom and truth,

"Masters of Deceit"

By J. Edgar Hoover

The story of Communism in America
and how to fight it.

The major menace of our time, communism, what it is, how it works, what its aims are, the real dangers it poses, and what loyal American citizens must know to protect their freedom."

"Every citizen has a duty to learn more about the menace that threatens his future, his home, his children, the peace of the world."

"Communism holds no mysteries--Its leaders have blue-printed their objectives. It is a threat to humanity and to each one of us."

In a legal brief submitted way back forty years ago, in 1919, Hoover submitted to his Chief, the Attorney-General of the United States, the following decisive statement: "These doctrines threaten the happiness of the community, the safety of every individual and the continuance of every home and fireside. They would destroy the peace of the country and thrust it into a condition of anarchy and lawlessness and immortality that passes imagination"

He declares, in this 1958 publication, "Today, as I write these words, my conclusions of 1919 remain the same! Communism is the major menace of our time. Today it threatens the very existence of our Western Civilization. Communism is more than an economic, political, social or philosophical doctrine. It is a way of life; a false, materialistic religion. It would strip man of his belief in God, his heritage of freedom, his trust in love, mercy and justice. Under communism all would become, as so many already have, twentieth century slaves. --It could happen here and today there are thousands of people working in secret to make it happen here.

"If we open our eyes, inform ourselves and work together, we can keep our country free."

"The Communist Party U.S.A. today is a dedicated, conspiratorial group operating under modern conditions as an arm of revolution. There is no doubt that today America is now the Prime Target of International Communism."

"This book expresses hope that all of us may develop a shared body of rudimentary knowledge about communism that we dare not be without."

2 "The Soviet Mentality is being imposed, both directly and indirectly on thousands of Americans. The Party's objective is to produce comrades who will work ceaselessly for the revolution that would make the U.S.A. part of the Soviet System."

"I have been guided by the thought of millions of loyal Americans everywhere and in every walk of life. Never has there been a time when we have so much need of one another. And we must never forget that if our government is to remain free, it needs the help of every patriotic man, woman and child."

roughly "Communism, within four decades-as a state power-has spread through 40% of the worlds population and 25% of the Earths surface.

"Every Party member-regardless of rank or position-works constantly to steal your rights, liberties, and property."

"The F.B.I. knows that the bigger job lies with the free worlds intellectuals-the people who think must convince men that communism is evil-must see that communism is the deadliest enemy that intellectualism and liberalism ever had. They must be as willing to dedicate themselves to this cause as the Communists have been to dedicate themselves to their cause."

ENCLOSURE

102-104277-1161

(2) "Communists have always made it clear that communism is the mortal enemy of Christianity-Atheism*-Mohammedism and any other religion that believes in a Supreme Being."

"Don't think that Communists have changed their minds about religion. Said Nikita Khrushchev" We remain the Atheists that we always have been; we are doing all we can to liberate those people who are still under the spell of this religious opiate." As long as communism continues remains, the assault will continue. Lenin said "We shall always breach a scientific philosophy; we must fight against the inconsistencies of the Christians." Characterize religion as a "Superstitious relic". "We say that our morality is entirely subordinated to the interests of the class struggle".

"Yet Communism is, in effect, a secular religion, with its own roster of gods, its own Messianic zeal, and its own fanatical devotees who are willing to accept any personal sacrifice that furthers the cause."

"By 1937, tactical caution was beginning to be replaced by a calculated program to exploit religion. In line with these tactics the Party is today engaged in a systematic program to infiltrate American religious groups. Members are being told "Join churches and become involved in church work"- in order to gain respectability-to provide opportunity for subtle dissemination of Communist propaganda,- to make contact with youth,- or to exploit the church through the "Peace Issue". To enlarge the area of Party contacts, to influence clergymen."

"The church, in communist eyes, is an enemy institution to be infiltrated, subverted and bent to serve Party ends. "We do not declare, and must not declare in our programme that we are Atheists".

"The Party's aim in addition to that of exploiting the church, is to neutralize religion as an effective counter weapon. A member of the party cannot be a Marxist and adhere to a religion."

"The Party is today desperately working to mold atheistic materialism as a weapon of revolution,- a revolution which if it is to succeed, must first sap religions spiritual strength, and then destroy it."

"The Party does realize that religion is its most potent foe."

"To meet this challenge no hesitant, indifferent, half-apologetic acts on our part will suffice. Out of the deep roots of religion flows something warm and good, the affirmation of love and justice; here is the source of strength for our land if we are to remain free. It is ours to defend and to nourish."

"Communism stands condemned on its own record.--it is digging its own grave. It cannot survive because it is anti-God and anti-man. It stands revealed as an evil conspiracy in pursuit of power.-----"

"The call of the future must be a rekindled American faith, based on our priceless heritage of freedom, justice and the religious spirit.--In our re-awakening we Americans can learn a great deal from the fight against communists. Here are five special areas;

1-~~IDEOLOGICAL~~ STUDY- We have not been sufficiently articulate and forceful in expressing pride in our traditions and ideals. We need to let "freedom ring". As Americans we should stand up-speak of it and let the world see the light (of freedom). The result would be a new America, vigilant-strong, but ever humble in the service of God.

2 TRAINING OF YOUTH--To make youth responsible, conscious of its obligations and eager to be good citizens. Helpful association with other youth, also incentive to work with adults *are essential*.

3-ACTION--Carrying out our responsibilities now. We need to provide our youth with activity groups. Our young people, as well as adults, need to be working members of our republic and citizens on duty at all times.

4- ACCENT THE POSITIVE--

5-FAITH*-The truly revolutionary force of history is not material power, but the spirit of religion. The world needs today a true revolution

of the fruitful spirit, not the futile sword. Man must rule by love, charity, mercy. With God's help, America will remain a land where people strive to be free and brave."

"The Communist Revolution in Russia is for years behind us. In these four decades, communism has had a chance to show what it does with power in its hand; how it treats people who live under it; what its attitudes are toward law, education, science and religion; how it handles its relations with the non-communist world. It stands condemned on its own record."

"For all too long, communism's true character has been concealed by its own propaganda, abetted by public ignorance and apathy. Marxism-Leninism stands revealed not as a "new world" of hope and justice but as an evil conspiracy in pursuit of power. Its cost in human misery and waste of human power is almost beyond description."

"Every home in America is deprived of an even higher standard of living as a result of the tax burden brought on by the utter necessity of keeping our defenses strong against the world-wide advance of communism.-----Most informed Americans now know that the communists adopt a cause only to exploit it for their own ends.-----But we cannot afford the luxury of waiting for communism to run its course like other oppressive dictatorships..The weapons of communism are still formidable. They become even more effective when we lower our guard and when we become lax in strengthening our democratic institutions in perfecting the American Dream."

"If communists can be so inspired by error, falsehood and hate, just think what we could do with truth, justice and love!"

"I thrill to think of the even greater wonders America can fashion from its rich, glorious and deep tradition. All we need is Faith-**REAL FAITH**"

"The communist prides himself on being a revolutionary-and revolutionary he is in the sense of destruction, terror and violence."

"Free men can learn here too: The truly revolutionary force of history is not material power but the spirit of religion."

"This must give us renewed zeal to work untiringly to uphold the ideals of justice and liberty which have made this nation great."

"With God's help, America can remain a land where people still know how to be free and brave."

(I wish to revamp and extend this a bit more fully, but from exact quotes as this is.)

Dear [Redacted]

It certainly was thoughtful of you to write on February 16, 1959, regarding "Masters of Deceit," and I want you to know that I sincerely appreciate your kind comments.

I am indeed encouraged to learn that you desire to effect a wider distribution of the book and pleased by your interest in suggesting that it be made available in a paper-backed edition. I thought you would be glad to know that the publisher already is considering this idea. Thank you very much for the benefit of your observations regarding the Soviet magazine. Enclosed is some material on communism which you might like to read.

Dear Mr. Hoover;

In regard to your frightening, but enlightening book, "Masters of Deceit", which I have just finished, may I commend you on writing it and also, may I suggest that this book should be made available to every American in paper back edition for under a dollar.

My book store informs me it is not in paper-back; it is very difficult to get from the public libraries, and the lending libraries have a waiting list. For so important a book, vital to every American in this country, it is a shame that it is not there for everyone to read, and be-ware.

As legislative and study group chairman for the Encino Republican Women's club of Los Angeles (a San Fernando Valley town) I felt I must buy a copy and distribute it among as many readers as possible.

Our club, through a poll, put subversion at the top of a list of subjects they would most like to study. It is up to me to see that they get the information.

You might be interested to know that on the newsstand in Reseda, I bought the reciprocal Soviet magazine, State Department approved, called USSR, for twenty cents. This is available to all. This magazine said we have one that is distributed over Russia, called Amerika, which I want also to read. The least we can do is to let all Americans know the true virulent, vicious beliefs of communists, and what a bitter fight they face, at a price they can and will afford.

Forward this letter to your publisher, if your contract is such that an agreement must be made. Thank you for your time, and know that all patriots will be solidly behind you, especially when they know the malignant nature of communism. An early reply would be appreciated.

Dear Mr. Hoover,

I have just finished reading your book, Masters of Deceit, and I would like to comment that I think that your book is very interesting and informative. Since it concerns the greatest menace of our time, Communism, I agree with you that every American should take time to read your book. I have just graduated from High School where I concluded a one year Modern Problems course. No mention was made of Communism in this course except for a very brief summary of the beginnings of Communism in Russia. Your book is so packed with a detached plan of Communistic aims in America starting from its origin in our country that I feel it should be made a high school text book which would be read by every American boy and girl. This, I believe would enlighten our minds to the threat which faces us.

Mr. Hoover, you also mentioned how Communism uses false front names to cover its illegal work. I think I missed a couple of important points in your fine book. If, as you stated, the Communist paper, the Daily Worker, does not support American views and opinions, why then, can't the publication of such a paper be eliminated. Also, why can't these front offices be closed. I am sincerely interested in your book, and I would appreciate any answers that you might have concerning F. B. I. work in this field. Thank you for your fine book.

Sincerely,

At a state convention of the Indiana Consumer Finance Assoc. in French Lick, Indiana last summer, our luncheon speaker one day was Clarence A. Jackson, president of Ind. State Chamber of Commerce. He spoke of your book and how important it was for everyone to read it.

Riding back to Michigan City the next day I said to my wife, "I can't understand Mr. Hoover writing about the sea--and I can't understand Mr. Jackson's insistence that every businessman should read it."

Dear Mr. Hoover:

It occurred to me that you and your organization would be interested in the unanimous en banc opinion of our State Supreme Court in the case of Howard L. Nostrand v. Thomas Balmer, decided January 29, 1959. Judge Charles T. Donworth, who authored the opinion, cited with approval your book, "Masters of Deceit", on page 453 of Volume 153, Washington Decisions 18. As you know, it is very seldom that a court of last resort cites as authority anything other than judicial decisions and reference books, such as American Jurisprudence and Corpus Juris, and the action here suggests the high esteem in which they hold you and the work you are doing.

In that the decision is not yet in volume form, I am enclosing here a copy of the advance sheet which you may enjoy reading.

Very truly yours,

On Its First Anniversary

A salute to the best-selling book
that is arming America against the
enemy within

PUBLISHED one year ago today, *MASTERS OF DECEIT* has been read by hundreds of thousands of Americans. The nationwide acclaim which greeted the book on publication is still pouring in.

No other man could have written this book, for no one else knows as much as J. Edgar Hoover about the subterfuges, tricks, and lies American Communists use to evade the law; to infiltrate every type of organization (even the churches); to gain the support of well-meaning people; to recruit new members; to act as the American arm of the Communist group which has enslaved the people of Russia, the countries of Eastern Europe, and China.

Eminent Americans and leading newspapers throughout the nation have emphasized the importance of *MASTERS OF DECEIT* and urged every American to read it. Today, on the first anniversary of the book's publication, we reprint some of these statements. As you read them you will see why, if you have not already read *MASTERS OF DECEIT*, now is the time for you to do so.

"Indispensable. The most authoritative book ever written on Communism in America. Particularly valuable now."
— CHARLES POORE, *N. Y. Times*

"Will shock the reader out of his apathy." — RICHARD CARDINAL CUSHING, Archbishop of Boston

"Beyond doubt one of the greatest books ever written about Communism . . . written by a man who knows and exposes his foe intimately. A book that should be read by everyone in the country."
— *Denver Post*

"Most important—and imperative—book of the decade." — DANIEL A. POLING, Editor, *Christian Herald*

"A guided tour through Communism by an expert." — *Newsweek*

"Vastly readable . . . a calm, factual recital . . . buttressed with case histories from the FBI files."

— WILLARD EDWARDS, *Chicago Tribune*

Dear Mr. Hoover,

I have just finished reading your book,
Masters of Deceit, which I thought was very well
 written and worthwhile. It helped explain a lot of
 the peculiar activities which were going on at Harvard
 when I was a student there in 1939 to 1943. Even at that
 time, it was my feeling that if a person wanted to be a
 communist, he should be willing to admit what he was.
 The switch when Hitler invaded Russia showed who stood where.

My purpose in this letter, however, is to say
 that I would like to see your ideas written up in a book
 about the good and bad influences affecting our youth. How
 can we do a better job than we are? How to distinguish lasting
 principles from passing fads? What are the signs and symptoms
 of trouble ahead. I know a lot has been written on this, and that
 you have yourself written articles, but I would like to see a
 full treatment of this general subject by someone with your
 experience, common-sense and dedication.

Sincerely yours,

Preacher Takes Trip Through Perdition Via Hoover Book

By REV F. D. STEVENSON

Mr. Editor: For weeks now I have been PEREGRINATING IN PERDITION. That's what I call my experience with the people I met. They were unpleasant people, very—revolt—ingly unpleasant people: the COMMUNISTS.

The poet Dante, when he took his imaginative journey through the ten stages of hades, had as his guide the dead poet Virgil. Together they peregrinated from one level to another of the abode of the bad, always down, each increasingly worse in punishment. My journey was something like that. For my guide I had J. Edgar Hoover, Chief of the FBI. He knows the ropes—the ropes with which the communists tie people. He knows their total dedication to evil, to trickery. He knows that a comparatively few at the core of the conspiracy are brilliant, talented, and never resting, push on toward their aim—the revolution that would take over our country and turn it into a subsidiary of the Russian Soviet.

The record of the journey I took with Hoover is recorded in his book, **MASTERS OF DECEIT**. Here, reliably recorded, are true detective stories by the dozen. It was beyond my imagination, till I read the book, that any one could find so many ways of entrapping people to become communists. They have all the cunning of the spider that said "Come into my parlor." And once in, the fly has strand after strand of silky web attached to it, limiting its movements but not killing it. The evil host only wants to control it completely.

The method they use is described by David in the thirty-fifth Psalm.

"For without cause they hid their nets for me . . . they

dug a pit for my life."
(Verse 5)

Hoover shows the way traps are set, pits dug, nets spread in concealed places by their double-meaning talk and promises of a kingdom of God on earth in the present. They offer no pie in the sky, but pie now before the eye of the hungry, the oppressed, the simple-minded, the discontented; the true idealist who wants to improve things for others.

Now Mr. Editor, if you think I am overpainting the picture, buy a copy of the book and read it, and still unconvinced, I will give your money back. That holds for any one else. The book, however, can be borrowed at the library. As I followed my guide I thought of scriptures that describe what I saw, the kind of people I met. "Woe to those who call evil good and good evil, who put darkness for light and light for darkness" (Isaiah 5:20) This describes exactly the way communists move. You cannot believe a word they say, for it is good to them to make you believe a lie. They completely reverse the usual moral and ethical distinctions.

Here also you will see how hard a life the communist himself lives. The same prophet in the above passage says some people "put bitter for sweet and sweet for bitter." Almost all the sweets of the average human life are swapped for bitter hours of discipline, hardship, waiting, hiding underground, raising money, even selling their own things to pay their expenses. A completed communist is completely brainwashed.

All the weary journey I kept thinking of Paul's description of FALSE PROPHETS—that's what the communists are—in Second Corinthians chapter 11—

(Continue To Page Seven)

Peregrinations

Continued From Page Four

"For such men are false apostles, deceitful workmen, DISGUISED themselves as apostles of Christ." Communists even join churches in order to control them.

Paul goes on, "And no wonder, for even Satan DISGUISES himself as an angel of light. So it is not strange if his servants also disguise themselves as servants of righteousness (RSV)"

Nearly a quarter of a century ago, I preached a sermon in which I said that communism is a counterfeit kingdom of God. Hoover, a member of a Presbyterian church, makes the same claim in his book.

Now do you believe I have been PEREGRINATING IN PERDITION? If not, read the book and take the trip yourself.

I was about to forget one thing more about the total picture: the psalmist's prayer "Let ruin come upon them unawares! And let the net which they hid ensnare them; Let them fall therein to ruin," is answered, in part, by our counterespionage system.

Dear Mr. Hoover:

Have just finished reading your latest book, "Masters of Deceit". It is a book which should do much good in arousing the people of our nation to the evils at our very door.

This book should be in our High Schools where our youth could see the dangers of believing the false statements and promises so glibly made by communists and others who would like to destroy our way of life. Will do all I can to help America keep her high aim to serve God and humanity. Keep up your fine work, we support you.

Dear John:

Enclosed is a sample of what just one of our register of high school papers are doing as a result of the HIGH SCHOOL REPORTER nudge to editors.

As soon as we get some time around here it is my intention to send you a complete round-up of such clippings. Both you and the Director will be happy about it. It represents a true and definite push in the Catholic High School press. And don't forget we are dealing with the cream of the crop.

The Crime Report arrived last week. I am puzzled about the arrest figure---it's the same, yet overall crime is up. If there is to be a clarification on that I would deeply appreciate your sending me notice of it...I might miss it if I took my chances with the papers.

Best regards and prayers for your continued and devoted work for all of us.

Masters, a Must In Reading Diet

By Ray Kissinger

Do you realize, that an ever-darkening shadow is slipping between America and a brilliant future? It is the dark forerunner of a terror, not at all shadowy, but very real: Communism.

The child of a bloody Russian revolution, Communism has been focusing its attacks on the American people for thirty years.

In June, 1937, Nikita Krushchev, Soviet Communist Party boss, prophesied to a nation-wide American television audience that their grandchildren will live under Communism.

It was such boasts and the growing realization of their possible reality that spurred J. Edgar Hoover to write *Masters of Deceit*.

This book explains the intricacy of both open and undercover work of the Communists.

We, the future of America, must recognize and combat a horror which has been deemed by many of the last generation as unimportant and insignificant.

"The Communists have no doubts. Their blueprints are already made," writes Mr. Hoover. These blueprints have been before America's unseeing eyes for more than a quarter of a century!

A New Orleans doctor considers the book so vital to every young American that he has offered to supply fifty Catholic high schools with a copy. Our school library has three brand new books available to enlighten (maybe even frighten) you.

We can no longer ease our consciences by pleading ignorance. It is our pressing duty to study carefully *Masters of Deceit*, lest we be deceived by a shadow.

Dear Sir:

This may seem to you as an unusual request but we trust you will consider our request carefully and appreciate its merits:

As Fund Raising Chairman of our business women's club here in Johnstown, New York, our task is to raise money which is used to loan to girl students who wish to further their education after high school and have no funds to do so. We charge them no interest and so far have loaned out quite a large sum of money.

At our last meeting in February, our committee was given the project to purchase one of your copies of "Masters of Deceit" to be placed in our High School library for the student's use. It seems they only have one copy so far, and no funds to appropriate for more copies. The book is in constant demand, which is a very good sign that our young people are aware of the threat communism makes to our lives.

Since we have quite a job to raise the money for our student loan fund anyway, and even though the book only costs \$5.00, we wondered whether you or your publishers would not donate such a copy for the above purpose, duly autographed by yourself. It would mean a great deal to our local group, our local High School, and also to our Fund Raising Committee.

As we said above, please consider our request sincerely as it is meant that way. I enclose a stamped, self-addressed envelope for your early reply and thank you in advance for whatever decision you may make.

Yours very sincerely,

Dear Mr. Hoover:

Three times I have already read your excellent work which is really an analytical encyclopedia of the American communism - Masters of Deceit.

When I finished the third reading I decided to ask you for your permission to translate "Masters of Deceit" into Czech language for the Czechoslovak independent weekly "Naše Hlasý" (Our Voices) of which I am the editor.

This weekly newspaper just entered the fifth year of its publication. I think that you know very well the work of the ethnic press in its fight against the communism in U.S.A. and Canada.

The people contributing to the ethnic newspapers do it without being paid - just for the right cause. If they can exist it is mainly due to the subscription and advertisements. Thus it is impossible for us to pay royalties to you for the translation.

Of course I have in mind the translation of "Masters of Deceit" for "Naše Hlasý" (Our Voices) only. In case that you will grant the permission, your work would appear in "Our Voices" in the form of the instalments.

There are about 10.000 Czechs and Slovaks in Toronto but many of them know only partially English so they cannot read your interesting book.

It is our duty to point out what is communism, what of danger it brings with and how to face communism. These are the facts which are contained in all details in your book.

In case that you will grant the permission we would like to publish a shorter introductory article about your activity as a head of FBI, about the FBI's activity, and of course we would be glad to bring also your picture. May I ask you for it too?

It is obvious that we would send you all issues of "Our Voices" in which the translation would appear. I would also send you one copy of my translation.

For your information I would like to mention that I have been connected with journalism already in my native Czechoslovakia and I continued in that activity right after my arrival to Canada in 1951. I am working as Assistant Librarian in the Jesuit Seminary in Toronto and taking correspondence courses for my B.A. degree with the University of Ottawa.

Dear Mr. Hoover,

Both my father and I wish to congratulate you on your very informative and truthful book "Masters of Deceit. My father has finished it and I am just starting it. I believe every person should read it for I believe a good many Americans, as patriotic as they feel, are not a fully informed about the evils of Communism and are even helping it in many instances, unaware of their aid.

I have just finished Kenneth Colegrove's book "Democracy Versus Communism which I feel, that if a course in the truths of Communism was introduced into our schools, would make an excellent textbook.

I am fifteen years old and at a sophomore student at Shelbyville High School. I am interested in government even though I don't intend to make a career of it, but I feel I should exercise my patriotic duties for "Eternal vigilance is the price of liberty." In our History class at school we receive a news magazine called "World Week," printed by Scholastic Magazine, Inc. I believe it does not present a full view of the news, but usually a one sided part which I believe is too partial to Communism.

Of course I donot say this as an accusation, but from my thinking I think it could be looked into.

I have also written to Senator Goldwater to ask him for some things since he is the one who I consider as the only real strong Republican anti commie. We have all supported Bill Jenner because we really believed that he was a very good senator.

I would also like to comment on our liberals in Congress and all over the country. I think these are the people the Commies are counting on to ruin capitilism for they are spending more then they have although I'll admit some of that money is used correctly.

Captioned individual closes his telegram by further asking the Director to "mention my son [REDACTED]"

Bufiles reflect no derogatory information and no prior correspondence regarding [REDACTED] yet his telegram is couched in such familiar language as "Dear Edgar long time no see--my son [REDACTED] is happy because he really is Edgar,"

Because our files fail to reflect any acquaintance between [REDACTED] and the Director and because of the terminology employed by [REDACTED] it would appear that a letter from the Director would be the very vehicle through which a "name dropper" would endeavor to enhance his own prestige and his son's standing at the school. It is further believed that his reference to "Masters of Deceit" is merely a snide attempt to inveigle a reply to an obviously "imposing" request.

RECOMMENDATION:

It is recommended that [REDACTED] request not be complied with and further that no acknowledgment of his telegram be made.

Dear Mr. Hoover,

I have recently read your book, "Masters of Deceit", and wish to thank you very much for this necessary information. Since reading your book, a neighbor and myself have sent for, and read, various reports from the House un-American Activities Committee and from Senate committees investigating communist activities in America, (listing enclosed). As a result of our study, we are dedicated to awakening as many of our friends as possible to the horrible truth.

We have received permission of our pastor to obtain and distribute, in our church, one thousand copies of Cardinal Cushing's recent statements concerning the advancement of communism and their attack on our Federal Bureau of Investigation. I have also enclosed another piece of material we would like to give them.

Any comments?

We [redacted] and myself), would also like your permission to quote your "Forward" in "Masters of Deceit".

~~KNOW~~ COMMUNISM

Article

Know communism for what it really is. Study communists tactics and see for yourself how communism attacks the minds of free men. Communism bitterly denies God and everything He means to those who know Him. Communism attempts to place the state, or party, in the place reserved only for God. The communist conspiracy in America and throughout the entire world places the individual at the disposal of the state, therefore admitting that individual rights cannot exist in its realm. Know the victories that communism has already won in America. See clearly that communism preaches slavery in the name of liberty. See for yourself that communists rely on uninformed loyal Americans to perform many of their acts of treason.

In order to know communism it is necessary to study and examine it. Don't make use of unreliable sources for your investigation! Consult your own Congressional records. Write to your representative or senator in Washington and request that he send you the findings and reports of the House un-American Activities Committee and the various Senate committees dealing with communist activities in America. Read J. Edgar Hoover's recent book, MASTERS OF DECEIT. In his book, the Director of the Federal Bureau of Investigation explains the startling facts about the major menace of our time, communism; what it is, how it works, what its aims are, the real danger it poses, and what loyal American citizens must know to protect their freedom.

I thought you would be interested in the contents of a letter recently directed to the Director from [redacted] Director of the International Police and State Defense, Lisbon, Portugal. Meu caro Director:

Traduziram-me recentemente um dos capítulos do seu livro "Masters of Deceit" e tive muito agrado em verificar a clareza e exatidão com que V.Ex.^a relata a forma insidiosa de agir usada pelos comunistas, que sendo do nosso conhecimento, por constantemente estarmos a verificar esses factos, passam no entanto despercebidos do grande público, ignorante dos processos por eles usados.

Reputo da maior utilidade, para defesa do Mundo livre, a publicação de obras como a sua - tanto mais que lhe empresta especial autoridade a reputação e prestígio internacionais que tão justamente alcançou o nome do seu autor.

Felicito-o e protesto-lhe, meu prezado Director, a mais alta consideração e subscrevo-me

Two chapters have been translated from your book "Masters of Deceit" and I was deeply pleased to see how clear and exact it deals with the insidious ways used by communists. While we are aware of their ways thanks to our continued experience they pass unnoticed of the people who do not know of their schemes.

I think it most useful for the defence of the free world the publication of such works as yours - more especially as the high reputation and International prestige of his author ascribe to it special authority.

Permit me to offer you my heartiest congratulations, my dear Director.

SUBJECT: "MASTERS OF DECEIT"

On 2-18-59 when the writer was in the office of [redacted] Director of the Policia Internacional e de Defesa do Estado (PIDE, International and State Defense Police), Lisbon, Portugal, the latter very proudly exhibited a copy of the Director's book "Masters of Deceit". [redacted] who has a very limited knowledge of the English language, stated that he had had portions of the book translated into Portuguese for use in connection with the training of agents of the PIDE who are working on Communist matters. He said that he had been extremely impressed with the fact that investigations by the PIDE of Communist matters in Portugal had served to confirm many of the statements in the Director's book. He felt that this was an excellent demonstration of the fact repeatedly reiterated by the Director that Communism is truly an international conspiracy.

The 3-5-59 issue of the Lisbon daily newspaper "Diario de Noticias" reported a press conference held by Captain NEVES GRACA on 3-4-59, in which he furnished to the press certain details regarding investigation of Communist activities in Portugal by the PIDE. It was interesting to note that in his press conference Captain NEVES GRACA made two separate references to the Director's book, commenting on the fact that the title of the book "Masters of Deceit" is a very apt one in referring to the deceit and treachery practiced by the members of the Communist Party.

This is for the Bureau's information. A separate letter setting forth in full the information given in the press conference by Captain NEVES GRACA has been submitted to the Bureau under the caption "Communist Party of Portugal; IS - Portugal".

I am writing to you now, not in my official capacity as a Branch Manager, but rather as a Sunday School Superintendent for our Junior Intermediate Department.

It is my sincere belief that this age group is the most important and that is why I am writing to you. Would it be too much trouble for you to send me an autographed copy of your new book, "Masters of Deceit"? I will be more than happy to send you a check for the book if you will enclose a bill with it. Also, if it is not too much trouble, could you write a personal letter to the boys and girls of my Junior Intermediate Department? It would mean a lot to them.

I would be so grateful for the privilege of having your book in my library at home, as I have two pre-school age children myself.

Please feel free to correspond with me about this, as I would be most happy to hear from you. You may write to the Junior Intermediate Department in care of the Fountain Square Christian Church, Shelby and Lexington Streets, Indianapolis, Indiana. Please send the book to me at the bank address.

Thanking you in advance for your time and trouble, I remain

Dear Mr. Hoover:

I have just finished reading your latest book entitled, "Masters of Deceit". Let me take this opportunity to congratulate you on the wonderful way in which you presented your interpretation of the story of Communism in America and what we as freedom loving citizens can do to preserve our great heritage from the awful menace of Communism. The book was truly an enlightening expose for me into a subject that I had heard a lot of but knew very little about.

As you may have noticed by the letterhead, I am a college student (Sophomore) and attend a small co-educational christian school controlled by the Church of the Nazarene. I was particularly impressed by part seven, in your conclusion, chapter twenty-three entitled "Communism: A False Religion". You brought home so forcefully to my mind how the Communists seek to take all faith and belief in God, the good and decent in man, and destroy it, thereby replacing it with materialism and a communist type of morality. This is truly a deadly evil and danger to all we as christian members of society. I too, am in agreement with the six aspects of our democratic faith that you presented in the chapter. It made me once again reaffirm my faith in democracy and belief in an eternal God. You also pointed out how Communism seeks to infiltrate our churches and twist these sacred beliefs and ideals that we know have come from God. Certainly the entire Christian Church in the world today needs to awaken to the fact that the objectives of communism are to ultimately destroy all religious beliefs in man towards God and replace them with a secular religion with its own particular gods. Definitely the Christian Church as I see it needs a spiritual revival, one that will first make the individuals in the churches alive in Jesus Christ and then ready and willing to fight, and even die for these treasured beliefs. Until this happens, I feel that while the average American churchman sits dosing in the pew Sunday after Sunday, the die-hard communist will be making rapid strides to eventually close all of our church doors.

All though I hate Communism with all my heart and your book intensified my desire to fight it with all that is within me, there is one thing I admire in a person who is a Communist. That is his tenacious devotion to the party, its beliefs, and what it is attempting to do. Certainly the full fledge, true blood, communist has no fear or shamefulness when it comes to seeing what he believes to be right take pre-eminence in his life. It is amazing sometimes how we as professed members of the Christian church fail to stand for what we believe and know in our hearts is right. We can all learn a lesson from the Communist members example, for someday we may have to take a stand on what we believe is right whether we want to or not.

In conclusion, let me say that I have been inspired and challenged by your thoughtful and intelligent writing of this book. Though I am a young person and a college student, I clearly see the awfullness of Communism to the American way of life and what it could do if it gained control. You have dealt a great blow to the cause of Communism by exposing the party for what it really is. It is my sincere hope that you as Director of the F. B. I. will continue to be outspoken against the Communist cause and its ideological teaching.

Sincerely, a Christian

Federal Bureau of Investigation
Washington 25, D. C..

Dear Sir:

I do hesitate to bother you, for I know you are busy,
but I know of no other place to go for the information
I need.

We have a discussion group in our local Episcopal Church,
of which I am a member, and recently we have had a couple
of people to ridicule the House Un-American Activities
Committee and to accuse them of persecution, denial of
civil liberties and so on. They also discredit the fact
that a man has belonged to several front groups, saying
that this means nothing and that such membership is of
no consequence when such a man applies for a security
clearance. I would certainly appreciate your views on
this matter to include the effect of such memberships
on an application for security clearance.

I have recently read your book, Masters of Deceit, and
if I'm not being too presumptuous, I would like to know
the name of the Episcopal Bishop in Ohio who was told
to leave the church, but left his estate for the propagation
of communism.

Thank you very much, if you can find time to do me these
favors, and also for your fine job as a public servant. You
are a great American.

Dear Mr Hoover,

I am writing to thank you for the autographed copy of your excellent book, Masters of Deceit. When I mentioned to [redacted] that I was enjoying the F.B.I. Story he asked had I ever read Masters of Deceit and I had to admit that I had not read it. It never occurred to me that John's offer to bring me a copy would become such a treasured book on my shelf. I want to thank you for your thoughtfulness, and I want you to know that I appreciate your signing it for me. It will be one book that I shall never lend out. (They are never returned)

With sincere thanks, I am,

Appreciatively Yours,

SUBJECT: WILLIAM M. MILLER
DOORKEEPER, HOUSE OF
REPRESENTATIVESBIOGRAPHICAL DATA:

The "Congressional Directory," 85th Congress, Second Session, January, 1958, reflects that William M. Miller, born July 20, 1909, Pascagoula, Mississippi, is the Doorkeeper of the House of Representatives. Miller attended George Washington Law School and has worked in the House Post Office, as messenger to the Doorkeeper, and Assistant Sergeant at Arms. Miller was the Minority (Democratic) Doorkeeper in the Eightieth and Eighty-third Congresses and was elected Doorkeeper of the House for the Eighty-first, Eighty-second, Eighty-fourth and Eighty-fifth Congresses. He served as Assistant Sergeant at Arms for the 1944 Democratic National Convention and as Chief Doorkeeper at the 1948, 1952, and 1956 Democratic National Conventions. Miller, a member of the Baptist Church, resides at 1732 S Street, Southeast, Washington, D. C.

INFORMATION IN BUFILES:

By letter dated 4-4-50 [redacted] made allegations that Representative William Myers Colmer had [redacted] on his payroll and that she "did little or no work" in his office. Basis for the allegation was an article by Drew Pearson. Investigation reflected that [redacted] did not keep regular office hours but did a unestimated amount of work at home. [redacted] helped his wife in her work for Colmer. Colmer declined to make any statements other than to say he had done nothing wrong. (46-16733)

The "Washington Times-Herald" for June 18, 1951, reflected that Representative Busbey (Republican) of Illinois called for an FBI investigation of folding room shortages. Busbey claimed he had been prevented from cross-examining House Doorkeeper William M. (Fishbait) Miller

and that he had been unable to obtain the Comptroller General's information about 30 persons who were on the folding room payroll but actually did no work there. Busbey felt that Miller violated the law by "erroneously or falsely" certifying that the 30 were at work in the folding room. (46-0-A)

RECOMMENDATION:
